STATEMENT OF COMPLIANCE

This Certificate of Compliance lists the building features and performance specifications need to comply with Title 24, Parts 1 and 6 of the California Code of Regulations. This certificate applies only to building lighting requirements.

The documentation preparer hereby certifies that the documentation is accurate and complete.

DOCUMENTATION AUTHOR: STEPHEN R. ZAJICEK | SIGNATURE: S.Zajicek | DATE

The Principal Lighting Designer hereby certifies that the proposed building design represented in this set of construction documents is consistent with the other compliance forms and worksheets, with the specifications, and with any other calculations submitted with this permit application. The proposed building has been designed to meet the lighting requirements contained in the applicable parts of Sections 110, 119, 130 through 132, 146,148 and 149 of Title 24, Part 6.

- ☐ The plans & specifications meet the requirements of Part 6 (Sections 10-103a). ☐ The installation certificates meet the requirements of Part 6 (10-103a3).
- ☐ The operation & maintenance information meets the requirements of Part 6 (10-103c).
  Please check one: (These sections of the Business and Professions Code are printed in full in the Nonresidential Manual.)
- ☒ I hereby affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code to sign this document as the person responsible for its preparation; and that I am licensed in the State of California as a civil engineer or electrical engineer, or I am a licensed architect.
- ☐ I affirm that I am eligible under the provisions of Division 3 of the Business and Professions Code by section 5537.2 or 6737.3 to sign this document as the person responsible for its preparation; and that I am a licensed contractor performing this work.
- ☐ I affirm that I am eligible under Division 3 of the Business and Professions Code to sign this document because it pertains to a structure or type of work described as exempt pursuant to Business and Professions Code Sections 5537, 5538 and 6737.1.

INSTRUCTIONS TO APPLICANT OUTDOOR LIGHTING COMPLIANCE & WORKSHEETS (Check box if worksheet is included)

For detailed instructions on the use of this and all Energy Efficiency Standards compliance forms, please refer to the Nonresidential Manual published by the California Energy Commission.

☒ OLTG-1-C	Certificate of Compliance. Required on plans for all submittals for outdoor lighting. Part 2 of 2 may be incorporated in schedules on the plans.
	Either LTG-1-C or OLTG-1-C may be used for signs as follows: 1. Use LTG-1-C if the project consists solely of indoor signs 2. Use LTG-1-C if the project consists of indoor lighting, and outdoor or indoor signs, but no other outdoor lighting. 3. Use OLTG-1-C if the project consists solely of outdoor signs 4. Use OLTG-1-C if the project consists of outdoor lighting, and indoor or outdoor signs, but no other indoor lighting
☒ OLTG-2-C	LIGHTING COMPLIANCE SUMMARY. Applicable Parts required for ALL outdoor lighting allowances (Except for Signs)
☒ OLTG-3-C	AREA CALCULATIONS WORKSHEETS. Applicable parts required for all outdoor area calculations.
☐ OLTG-4-C	SIGN LIGHTING COMPLIANCE. Required for all internally and externally illuminated signs, for both indoor and outdoor signs

Hardscape - Method (i)

A. Hardscape for automotive vehicular use, including parking lots, driveways and site roads

Areas (ft^2) to Subtract from within Illuminated Area

A List Specific Application (Table 147-A)	B Actual Paved Area plus 5' perimeter of adjacent unpaved land, including planters and landscaped areas less than 10' wide that are enclosed by hardscape on at least 3 sides	C Areas between poles or luminaires that are greater than 8' mounting height distance (if Applicable)	D Overlapping Areas of Another Application or Luminaire	E Building Areas	F Areas Obstructed By Sign or Other Structure	G Sub Total of areas to Subtract (C + D + E + F)	H Illuminated Area (B - G)
PARKING LOT, DRIVEWAYS	16,563	6,264	-	32,403	-	38,741	10,226
SIDEWALKS, WALKWAYS							

B. Hardscape for pedestrian use, including plazas, sidewalks, walkways and bikeways

Areas (ft^2) to Subtract from within Illuminated Area

A List Specific Application (Table 147-A)	B Actual Paved Area plus 5' of unpaved land on other side of property line. Bike path or sidewalk of contiguous paved area before including adjacent grounds.	C Areas between poles or luminaires that are greater than 8' mounting height distance (if Applicable)	D Overlapping Areas of Another Application or Luminaire	E Building Areas	F Areas Obstructed By Sign or Other Structure	G Sub Total of areas to Subtract (C + D + E + F)	H Illuminated Area (B - G)

Checklist
- ☐ § 147(c)1B - Each portion of all illuminated areas has been assigned only one lighting application, and the applications are consistent with the actual use of the areas.
- ☐ § 147(c)1A - General illumination areas includes only those illuminated areas that are in the bounds of the Application and are within a square pattern around a luminaire that is six times the luminaire mounting height, with the luminaire in the middle of the pattern, less any areas that are within buildings, under canopies, beyond property lines, or obstructed by a sign or other structures.

TITLE 24 MANDATORY MEASURES

1. Building Lighting Shut-off
   The building lighting shut-off system consists of an automatic time switch, with a zone for each floor.
2. Override for Building Lighting Shut-off
   The automatic building shut-off system is provided with a manual accessible override switch in sight of the lights. The area of override is not to exceed 5,000 square feet.
3. Automatic Control Devices Certified
   All automatic control devices specified are certified, all alternate equipment shall be certified and installed as directed by the manufacturer.
4. Fluorescent Ballast and Luminaries Certified
   All fluorescent fixtures specified for the project are certified and listed in the Directory. All installed fixtures shall be certified.
5. Tandem Wiring for Two-Lamp Ballast's
   All three lamp fluorescent fixtures are specified with electronic high-frequency ballast's and are exempt from two-lamp tandem wiring requirements.
6. Individual Room/Area Controls
   Each room and area in this building is equipped with a separate switch or occupancy sensor device for each area with floor-to-ceiling walls.
7. Uniform Reduction for Individual Rooms
   All rooms and areas greater than 100 square feet and more than 0.8 watts per square foot of lighting load shall be controlled with Bi-level switching for uniform reduction of lighting within the room.
8. Daylit Area Control
   All rooms with windows and skylights, that are greater than 250 square feet, and that allow for the effective use of daylight in the area shall have 50% of the lamps in each daylit area controlled by separate switch.
9. Control of Exterior Lights
   Exterior mounted fixtures and served from the electrical panel inside the building are controlled with a corresponding relay in the lighting control panel.

ILLUMINATED AREA CALCULATION WORKSHEET (Part 2 of 5) OLTG-3-C

PROJECT NAME: COUNTY OF ORANGE HEALTH CARE AGENCY - 401 S. TUSTIN ST | DATE: 03/19/09

A. Hardscape - Method (ii)

Hardscape for driveways, site roads, sidewalks, walkways and bikeways-

A List Specific Application (Table 147-A)	B Length of 30' wide path incorporating as much of the paved area as possible.

Checklist
- ☐ § 147(c)1 B - Each portion of all illuminated areas has been assigned only one lighting application, and the applications are consistent with the actual use of the areas.
- ☐ § 147(c)1 B Method (ii) - General illumination areas for site roadway, driveway, sidewalk, walkway, or bikeway includes only those illuminated areas that are in the bounds of the Application and includes a 25 foot wide area running along the axis of the path of travel and includes as much of the paved area as possible

B. Building Entrances without Canopies

A Width of Window plus 3 feet	B Smaller of 19 feet or distance to the edge of the property line	C Area (A x B) (ft^2)
(3) 3'ft. DOORS @	19'	114
(1) 3'ft. DOORS @	19'	57

Checklist
- ☐ §147(c)1B - Each portion of all illuminated areas has been assigned only one lighting application, and the applications are consistent with the actual use of the areas.
- ☐ § 147(c)1 A - General illumination areas includes only those illuminated areas that are in the bounds of the Application and are within a square pattern around a luminaire that is six times the luminaire mounting height, with the luminaire in the middle of the pattern, less any areas that are within buildings, under canopies, beyond property lines, or obstructed by a sign or other structures.
